

Record of Changes for the Federal 855 Implementation Convention

Seg	DE	Change
		a. Added the following to the end of transaction set notes 2 and 3: <i>Also transmit the N1 loop using codes BY and SE.</i> b. Added code AK to transaction set note 4.
1/BAK/020	BAK02	a. Revised the note for code AC as follows: <i>Use to indicate an order is being acknowledged with detail and changes. The changes may include the rejection of one or more line items. Use this code only if BEG07 in the applicable 850 transaction set was code AC.</i> b. Added the following to the end of the note for code RF: <i>Do not use this code if the order is being accepted but one or more line items are being rejected. Use code AC for this purpose.</i> c. Added the following to the end of the note for code RJ: <i>Do not use this code if the order is being accepted but one or more line items are being rejected. Use code AC for this purpose.</i>
1/PER/060	PER02	Changed note to read as follows: <i>Use to identify the name of a point of contact. Last name followed by first name is preferred. If the whole name is longer than 35 characters, the use of initials for the first name is recommended. PER09 may be used to cite the party's title.</i>
	PER04	Added following note 2: <i>All numbers shall be transmitted as a continuous number with no extraneous characters.</i>
1/N1/300	N103	a. Added DUN+4 to code 1 note b. Added code 9 with following note: <i>Use of the DUNS or DUNS+4 code is preferred over other codes to identify an entity.</i>
1/REF/340		Deleted segment. Personal identification numbers no longer used.
1/PER/350	PER02	Changed note to read as follows: <i>Use to identify the name of a point of contact. Last name followed by first name is preferred. If the whole name is longer than 35 characters, the use of initials for the first name is recommended. PER09 may be used to cite the party's title.</i>
	PER04/06/08	Added following note 2: <i>All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters.</i>
2/PO1/010		a. Revised segment note 3 as follows: <i>When BAK02 is code AC, use to identify the correct line item information when it differs from that contained in the 850 transaction set or to identify a rejected line item.</i> b. Added following note 4: <i>If one or more line items are rejected, identify the line items in this segment and cite code IR in ACK01.</i>
2/ACK/270		Revised segment note 1 as follows: <i>Use this segment when BAK02 is code AC or AD to provide information related to the line item ordered in the applicable 850 transaction set. If a line item is rejected, cite code IR in ACK01.</i>
2/N9/350		Changed segment to "Used".
2/MSG/360		Changed segment to "Used".
